### Table of contents

<b>Basic statistics of Germany, 2014</b> .....	7
<b>Executive summary</b> .....	9
Unemployment is low but productivity growth has weakened .....	10
Demographic ageing and a large refugee inflow pose challenges .....	10
Investment is subdued and key social infrastructure needs to be developed further .....	10
<b>Assessment and recommendations</b> .....	13
Economic growth has been modest and business investment is recovering slowly .....	17
Euro area monetary conditions have eased further .....	20
Risks from the low interest rate environment have so far been limited .....	21
The current account surplus remains large .....	22
The labour market has tightened, but a large gender pay gap and rising immigration pose challenges .....	23
Fiscal policy must address several challenges .....	28
Raising investment and productivity .....	30
Well-being and demographic change .....	38
Bibliography .....	43
<b>Annex. Progress in structural reform</b> .....	49

### Thematic chapters

<b>Chapter 1. Boosting investment performance</b> .....	57
Policies to strengthen business and public investment can boost productivity and wellbeing .....	58
Non-residential investment has weakened .....	58
Weaker demand is the main explanation of weaker business investment .....	62
European-wide efforts to bolster growth would also strengthen investment in Germany .....	65
Removing barriers to competition strengthens investment .....	66
Improving the roll-out of high-speed broadband infrastructure .....	75
Raising public investment to strengthen inclusive growth .....	76
Recommendations to raise investment performance .....	85
Bibliography .....	86
<b>Chapter 2. Raising well-being in Germany's ageing society</b> .....	91
Well-being outcomes are good in international comparison but weaken with age .....	92

Population ageing is setting in more rapidly in Germany than in most other OECD economies .....	92
Reforming the pension system to improve the work-life balance of the elderly ..	95
Ensuring pension adequacy .....	99
Improving health outcomes in the light of demographic change .....	106
Improving skills in the context of demographic change.....	112
A large inflow of refugees has raised immigration to historically high levels.....	114
<i>Recommendations to raise well-being in Germany's ageing society.</i> .....	120
Bibliography .....	121

#### Boxes

1. Shocks that might affect economic performance .....	19
1.1. Knowledge-based capital: Definition and measurement.....	61
1.2. The role of municipalities in revenue and task sharing between federal levels ..	79
1.3. Opportunities and challenges of PPPs.....	84
2.1. Long-term economic projections compared.....	96
