Title: 50 characters including spaces	EURODISEA: WORK PLACEMENTS FOR YOUNG PEOPLE IN EUROPE
Body Text: 1500 characters including spaces	Since 1987, the Regional Ministry of Finance and Economic Model of the Generalitat Valenciana has participated in the development of the Eurodisea Programme, which allows exchanges between young people aged 18 to 30 from different regions of Europe with the aim of offering them paid professional internships while they perfect a language. This programme is part of the action entitled "Work placements for young people in Europe" and its specific objective is to "Increase labour mobility at national and international level as a means of achieving lasting integration into the labour market". This Programme is twofold. On the one hand, it enables young Europeans to have an employment contract in Valencian companies or entities for a period of three to seven months, and on the other hand, it allows young Valencians to carry out professional internships in European companies. For the year 2022, the Regional Ministry has earmarked €496,521 to subsidise companies that hire 50 young people from the participating countries, financing 92% of the salary cost of the contract, as well as an intensive Spanish course, accommodation for the first month, technical assistance service and cultural immersion activities. It is expected that thanks to this action 218 young Valencians will participate in the Programme (2014-2020) and that at least 35% will get a job during the first year after their return to the Valencian Community.

Annex - table

Country:	Spain
Project name:	Line of aid for the development of the Eurodisea Programme
