Foreword	3
Editorial	4
Executive summary	13
1 Recent developments in international migration movements and labour market inclusion of immigrants	17
In Brief	18
Recent trends in international migration	20
Recent trends in labour market outcomes for immigrants in the OECD area	44
References	56
Annex 1.A. Supplementary tables and figures	57
Notes	79
2 Recent developments in immigration policy	81
In Brief	82
Introduction	83
Large-scale immigration policy actions were rare in 2020	83
The majority of changes in 2020 reflect a response to COVID-19	87
Brexit shifts the immigration landscape in Europe (and beyond)	91
References	95
3 Recent developments in migrant integration policy	97
In Brief	98
Introduction	98
Digitalisation may be the most durable change wrought by COVID-19	99
While digitalisation was important, most policy responses to COVID-19 were not driven by technology	102
Addressing discrimination has become a high priority for integration	103
Other recent changes to integration policies in OECD countries	106
References	109
4 The fiscal impact of immigration in OECD countries since the mid-2000s	111
In Brief	112
Introduction	113
Recent evidence on the fiscal impact of immigration in OECD countries	114
Measuring the fiscal impact of immigration	116

The fiscal impact of immigrants in OECD countries, 2006-18	119
Conclusion	139
References	140
Annex 4.A. Additional tables and figures	143
Annex 4.B. Data and methodology	155
Notes	160
5 Residential segregation of immigrants: Patterns, drivers, effects and policy responses	163
In Brief	164
Introduction	166
Patterns of immigrant concentration	168
Location choices and residential mobility of immigrants	186
How does residential segregation affect immigrant integration?	196
Policy issues and migrant segregation	208
Conclusion	220
References	221
Annex 5.A. Supplementary materials	232
Notes	236

FIGURES	
Figure 1.1. Permanent migration flows to OECD countries, 2010-2020	20
Figure 1.2. Inflows of permanent immigrants into OECD countries as a percentage of the total population, 2020 compared with 2010-19	23
Figure 1.3. Permanent migration to OECD countries, by category of entry, 2009-20	24
Figure 1.4. Composition of permanent migration to OECD countries by category of entry, 2020 compared with 2019	25
Figure 1.5. Inflows of temporary labour migrants (excluding posted workers) in 2019 and 2020, six main OECD receiving countries in 2020	26
Figure 1.6. Twenty main nationalities of international students enrolled in OECD countries, 2013 and 2019	31
Figure 1.7. New asylum applications since 1980 in the OECD and the European Union	31
Figure 1.8. Monthly asylum applications in the European Union, 2018-21	32
Figure 1.9. Refugees admitted under resettlement programmes, 1981-2020	34
Figure 1.10. Top 20 nationalities of origin of new immigrants to the OECD, 2018-19	36
Figure 1.11. Foreign-born population in the OECD area and Europe, 2000-2020	37
Figure 1.12. The foreign-born as a percentage of the total population in OECD countries, 2010 and 2020	38
Figure 1.13. Share of men in overall migration flows to OECD countries, 2013-19	39
Figure 1.14. Share of men in overall migration flows and stocks in selected OECD countries, 2020	40
Figure 1.15. Acquisitions of citizenships in OECD countries, 2000-20	41
Figure 1.16. Acquisitions of citizenship as a percentage of foreign population, 2018-19	41
Figure 1.17. Acquisitions of nationality in OECD countries: Top 20 countries of former nationality, 2019 and 2010	42
Figure 1.18. Naturalisation of UK citizens in EU and non-EU OECD countries, 2019 compared with 2015	43
Figure 1.19. Naturalisation of EU and non-EU citizens in the United Kingdom, 2019 compared with 2015	43
Figure 1.20. Employment rates by country of birth, 2002-2020	45
Figure 1.21. Change in the population in employment by industry and country of birth, 2019-2020	50
Figure 1.22. Changes in employment rates by demographic group and country of birth, in selected OECD countries, 2020 compared to 2019	51
Figure 1.23. NEET rates by place of birth in selected OECD countries, 2004-2020	53
Figure 4.1. The share of the total government expenditure on <i>pure</i> public goods financed by immigrants, 2006-18 average	121
Figure 4.2. Decomposition of the gap in expenditure per capita (foreign-born/native-born) into the different expenditure items, 2006-18	127
Figure 4.3. Decomposition of the gap in revenue per capita (foreign-born/native-born) into different revenue items, 2006-18	127

Figure 4.4. Correlation between the relative fiscal ratio (foreign-born/native-born) and the relative share of the population aged 15-64, 2006-18 average	129
Figure 4.5. Median fiscal ratio of immigrants by age group, 2006-18 average	130
Figure 4.6. Relative per capita government revenue and expenditure (foreign-born/native-born), prime-aged individuals, 2006-18 average	131
Figure 4.7. Relative per capita government revenue and expenditure (foreign-born/native-born), by educational attainment, prime-aged individuals, 2006-18 average	132
Figure 4.8. Total fiscal ratio of immigrants born in EU countries and non-EU countries, European OECD countries, 2006-18 average	134
Figure 4.9. Total fiscal ratio of the foreign and native-born over time, 2006-18	135
Figure 4.10. Correlation of the change in the relative fiscal ratio (foreign-born/native-born) and the change in the relative share of the working-age population, 2007-17 change	137
Figure 4.11. Change in the fiscal ratio of the foreign and native-born during the global financial crisis, working-age individuals	138
Figure 4.12. Correlation of the change in the fiscal ratio (%) and the unemployment rate (ppt) during the global financial crisis, working-age population	139
Figure 5.1. Location quotients of immigrants across US states, 1940-2019	169
Figure 5.2. Share of immigrants and native-born living in the capital region in the United Kingdom, France, Spain and Sweden, 1960-2020	170
Figure 5.3. Share of foreign-born in the working-age population (15-64) according to the degree of urbanisation in selected OECD countries, 2019	171
Figure 5.4. Share of immigrants and population in cities in selected EU countries, by place of birth	174
Figure 5.5. Share of immigrants and population in Canadian cities, by place of birth, 2016	174
Figure 5.6. Share of immigrants and city population in the United States, by place of birth, 2018	175
Figure 5.7. Location quotients of non-EU-born immigrants in Berlin, London, Paris and Rome, 2011	179
Figure 5.8. Dissimilarity index and share of non-EU immigrants in cities in European countries, 2011	180
Figure 5.9. Dissimilarity index of immigrants and native-born with immigrant parents in Stockholm, Gothenburg and Malmö, Sweden, 2007-17	181
Figure 5.10. Location quotients of non-EU immigrants in Stockholm and Gothenburg, Sweden, 2017	181
Figure 5.11. Share of respondents saying that they live in neighbourhoods where all or most people in their neighbourhood have the same ethnic or immigrant background as themselves, 2016	182
Figure 5.12. Location quotients of the foreign-born in Toronto, Montréal and Vancouver, 2016	183
Figure 5.13. Correlation between the share of immigrants from different regions of birth and living standards (median income and share of non-suitable housing) in Canadian cities, 2016	184
Figure 5.14. Concentration of children of immigrants in schools	185
Figure 5.15. Evolution of concentration of children of immigrants in schools	186
Figure 5.16. Distribution of newly arrived immigrants across departments in France, by region of origin, 2012-17	191
Figure 5.17. Correlation between duration of stay in the country and the probability of internal mobility, by region of birth, the United States, 2018-19	194
Figure 5.18. Difference in predicted host-language fluency according to residence in high-concentration vs low-concentration neighbourhoods, by duration of stay, for immigrants born in Turkey, North Africa, South Asia and Sub-Saharan Africa (selected European countries, 2016)	202
Figure 5.19. Performance of native-born students with immigrant parents in schools with a high concentration of such students compared with those with a lower concentration	206
Figure 5.20. Performance of native-born students with native-born parents in schools with a high concentration of children of immigrants compared with those with a lower concentration	207
Annex Figure 1.A.1. Unemployment rates by country of birth, 2002-2020	66
Annex Figure 1.A.2. Change in the gap between male and female employment rates, by place of birth, 2002-2020	67
Annex Figure 4.A.1. Relative fiscal ratio (foreign-born/native-born) if the foreign-born had the same age distribution as the native-born, 2006-18	147
Annex Figure 4.A.2. Decomposition of the relative expenditure per capita gap (foreign-born/native-born) into the different expenditure items, native-born children of immigrants classified as immigrants, 2006-18	147
Annex Figure 4.A.3. Total fiscal ratio of immigrants by age group, by country, 2006-18 average	148
Annex Figure 4.A.4. Total fiscal ratio of the foreign and native-born by age group, by country, 2006-18 average	150

Annex Figure 4.A.5. Difference in the total net fiscal contribution per capita, divided by GDP per capita, between the foreign and native-born prime-aged, by education level, 2006-18 average	151
Annex Figure 4.A.6. Total fiscal ratio of EU and non-EU immigrants, relative to the native-born, 2006-18 average	151
Annex Figure 4.A.7. Change in the unemployment and employment rate of the foreign-born and native-born between 2007 and 2009	153
Annex Figure 4.A.8. Fiscal ratio of the foreign and native-born over the lifecycle, expenditure on public goods apportioned per capita to all adults, 2006-18 average	153
Annex Figure 4.A.9. Age distribution of immigrants and the native-born	154
Annex Figure 4.A.10. Total net fiscal contribution per capita, divided by GDP per capita, of the foreign and native-born by age, 2006-18	154
Annex Figure 4.B.1. Main categories of public expenditure in OECD countries	156
Annex Figure 4.B.2. Main categories of public revenue in OECD countries	157
Annex Figure 5.A.1. The checkerboard problem and the modifiable areal unit problem	233
