Foreword	3
Basic statistics of Viet Nam, 2023	7
Executive Summary	8
<b>1 Strengthening the macroeconomic foundations for growth</b>	<b>17</b>
1.1. Growth has returned to its pre-pandemic pace	18
1.2. Looking ahead, growth is projected to weaken	20
1.3. Keeping inflation low while improving the monetary policy framework	23
1.4. Addressing financial-sector risks and improving resource allocation	28
1.5. Fiscal challenges include revenue mobilisation and a better fiscal framework	33
References	45
<b>2 Towards more inclusive growth</b>	<b>47</b>
2.1. Viet Nam has reduced poverty and contained inequality, but several groups lag behind	48
2.2. Access to social protection could be further improved	51
2.3. Reducing barriers to formal employment	54
2.4. Access to public services could be improved	59
2.5. Women participate actively in the labour market, but not in senior positions	62
2.6. Achieving an equitable transition to a low-carbon economy	63
References	66
<b>3 Unlocking low-carbon economic growth</b>	<b>69</b>
3.1. Viet Nam is acting to mitigate and adapt to climate change	70
3.2. The energy mix is changing, but not enough to reduce emissions	71
3.3. Climate actions include both price-based and regulatory measures	73
3.4. Decarbonising electricity generation will be key for emission reductions	78
3.5. Reducing emissions from ground transportation	86
3.6. Adaptation investments are needed to reduce environmental damages	88
References	91
<b>4 Harnessing trade and investment flows to boost productivity</b>	<b>95</b>
4.1. Viet Nam aims to achieve high-income status in two decades	96
4.2. The positive impact of FDI and trade on the Vietnamese economy	98
4.3. Productivity growth in Viet Nam has outpaced its peers, but the level remains relatively low	101
4.4. Sustaining inflows of foreign direct investment to Viet Nam	104
4.5. Better leveraging foreign direct investment and international trade to boost productivity	108
4.6. Scaling up domestic firms to boost connections with MNEs	124
4.7. Improving the allocation of resources	127
4.8. Improving economic governance and fighting corruption	130
